General Education Assessment Process

Communication Skills Competency Assessment

Competency Statement: Students will demonstrate effective written, oral, and visual communication.

Operational Definition: Upon completion of 30 hours in a degree plan at Amarillo College, students will demonstrate effective written and oral communication using appropriate sources, documentation, and visual design elements.

Benchmark: 70% of all artifacts will score a 3 or higher.

Description of Artifacts of Student Work: Assignments to be assessed for the communication competency would require students to present a grammatically correct essay or speech effectively organized with an introduction, conclusion, thesis statement, supportive reasoning, and appropriately documented evidence. If the assignment is an oral presentation, the assignment should also require effective verbal and nonverbal delivery. Visual design elements should be incorporated into any communication assignment. Visual elements include, but are not limited to graphs, tables, charts, slides, streaming video, etc.

Definitions of Concepts

1. *Focus* – is the extent to which the content of the essay/presentation corresponds to the thesis statement. In other words, good focus means that the thesis statement drives the whole document. Each section, then, focuses on presenting and arguing the thesis statement with logical reasoning, supportive evidence, and correct documentation.
2. *Organization* – relates to the order in which ideas are presented in support of the thesis statement. The introduction, body, and conclusion are developed in a logical, sequential order with clear transitions, and evidence is organized within each section. An artifact with good development includes supportive reasoning and evidence that *build* on each other as the document unfolds.
3. *Assignment's Requirements* – relate to what the instructor has set forth in the assignment. A communications artifact can be delivered well in all aspects and not respond to the assignment.
4. *Style* – is the way in which words and sentences are put together. It involves word choice, sentence structure, and tone appropriate for the rhetorical situation. Different styles can be effective in different genres; however, any style in academic communication should demonstrate control of sentence-level errors such as grammar problems, misspellings, improper use of punctuation, etc.
5. *Vocal delivery* – includes elements such as volume, variety, fluency, rate, pronunciation, articulation, and vocal pauses.
6. *Nonverbal Communication* – includes aspects such as eye contact, gestures, movement, vitality, facial expressions, and proper use of lectern and visual aids where appropriate.
